PROFESSIONAL EXPERIENCE

Performance Excellence Supervisor

Yas Clinic Khalifa City | Abu Dhabi, UAE January 2025 – Present

- Developed and deployed **12 interactive Power BI dashboards** monitoring **40+ organizational KPIs**, providing real-time performance insights across all hospital departments.
- Led the transformation from manual Excel reporting to automated Business Intelligence dashboards, saving approximately **7 hours per week** while improving reporting accuracy and consistency.
- Designed and developed an internal Streamlit based **Physician Directory & Smart Triage application**, improving patient routing accuracy and enabling over **30 staff members** to quickly identify the appropriate physician.
- Conducted stakeholder workshops, gathered business requirements, and developed business cases supporting physician recruitment, capital asset investments, and operational process improvements.
- Built predictive analytics models and executive performance reports to support strategic planning, resource allocation, and informed decision-making.
- Standardized KPI reporting and collaborated with Finance, Clinical, and Operations teams to strengthen data governance and organizational performance.

Operational Business Analyst

Yas Clinic Khalifa City | Abu Dhabi, UAE January 2023 – December 2023

- Analysed operational workflows and identified process improvement opportunities that enhanced efficiency and patient service delivery.
- Developed business cases and cost-benefit analyses supporting investments in new medical assets and operational initiatives.
- Performed physician productivity, revenue, and operational performance analyses to support executive decision-making.
- Facilitated stakeholder workshops, documented business requirements, and translated business needs into practical analytical solutions.
- Developed operational dashboards and reports that enabled leadership to monitor performance and drive continuous improvement.

Team Leader – Guest Services & Quality Link

Yas Clinic Khalifa City | Abu Dhabi, UAE January 2022 – December 2022

- Supervised a team of **35 Front Desk employees**, ensuring high-quality patient registration and reception services.
- Monitored billing and registration KPIs, driving operational improvements and compliance with organizational standards.
- Conducted internal quality audits and ensured compliance with Department of Health (DOH) regulations and hospital policies.
- Improved patient flow and coordinated cross-functional teams to enhance service quality and operational efficiency.

EDUCATION

Master of Instrumentation Engineering

Ain Temouchent University, Algeria | 2021

Bachelor of Industrial Engineering

IMSI Oran University, Algeria | 2018

CERTIFICATIONS

- IBM Data Science Professional Certificate

KEY PROJECTS

Enterprise KPI Dashboard Suite

Designed and deployed **12 interactive Power BI dashboards** monitoring **40+ KPIs**, improved process and decision making by executives.

Smart Physician Directory & Triage Platform

Designed and developed a **Streamlit-based internal application** that automates patient triage, recommends the appropriate specialty, and provides physicians' profiles.
